## BE INFORMED AND PREPARED

Remember how long it took to pack for your last vacation? The last thing you want to worry about in a disaster is packing. That's why everyone should have an Emergency Supply Kit ready to go.

View & print the checklist below to help build your own families kit! (Info @ knowwhat2do.com)

### EMERGENCY KIT CHECKLIST

Pack supplies in a duffle bag, suitcase or storage container and keep it in an easily accessible place. Remember: check and update your kit every year—test batteries, check expiration dates and update important documents.
